

## Music Machine 14

Music Machine 14 is made up of a drone and a melody.

The drone is created from the combination of the D one octave below middle C and the D 2 octaves below middle C.

The melody is created using the Dorian mode beginning on the D above middle C for one octave. The rhythm is created from a choice of three possibilities, a quaver a crotchet or a minim at 60 bpm.

The machine will run indefinitely until stopped by the user.
